RE: RM-8811, ET Docket 95-183

Dear Mr. Caton:

We have reviewed BizTel, Inc.'s ("BizTel") pleadings in the matter of the "Petition for Rulemaking of Motorola Satellite Communications, Inc., ("Motorola") Public Notice Report No. 2132" released May 21, 1996. We concur with BizTel positions regarding the matter and urge the Commission:

1. Not to license any portion of the 38.6 - 40.0 band for Fixed Satellite Service Systems;
2. To require Motorola and other interested satellite parties to provide specifications for contemplated fixed satellite service systems to determine the feasibility of utilizing the 37.5 - 38.6 GHz band for this service; and
3. To require Motorola and other interested parties to develop a complete record in the ongoing rulemaking proceedings in ET Docket 95-183 with respect to the feasibility of accommodating FSS operations in the 37.5 to 38.6 GHz band.

Respectfully submitted,

Steven P. Seiter
President
