As a conscientious citizen of Lawrence, Kansas who supports community radio (our local KAW 88.9), I am very much a supporter of the rule proposal that will enable microradio to become licensed. Petition RM-9242 is, in my opinion one of the best things the Federal Communications Commission can do to protect the core American values of democracy and the freedom of speech. Providing all Americans with a voice for their own individual views is, I believe, the fundamental mission of the FCC. Please approve petition RM-9242 and bring democracy back to the citizens of Lawrence, Kansas and the rest of our great country.

Thank you,
Matt Bachand
