Washington, DC 20554

DOCKET FILE COPY ORIGINAL

To Whom It May Concern:

I'm writing this Regarding petition RM-9242.
I would like to express my support for KAW-
Lawrence Community Radio in Lawrence, KS.
KAW is a benefit to the Lawrence Community,
They provide us with 100% public service.
Anything that can be done to enable KAW
to continue serving the Lawrence Community
should be done.

I believe the FCC should establish affordable
licensing procedures for low power stations
such as KAW. To do this would be a
public service to Lawrence and America.
I believe this would fullfill the
FCC mandate already in place to
allow free and affordable access to the
air waves,
