Dearest officiates of the F.C.C.

DOCKET FILE COPY ORIGINAL

I would like to express my support for low power community access radio in this country. At this point in time it is my feeling that the needs of many people are served by your current laws. By licensing stations over 100 watts you are limiting airwaves to give voice only to those people and entities who can afford a 100 watt station. Those people are a minority and their ideas and values are NOT representative of what many people feel & think. Before Klaw 88.9 FM started in our community, there was no outlet for the people of the community to express their thoughts to other people over the airwaves. Power to the People! Give us back

PS Our community radio station expresses in it's programming the diversity of the Lawrence community. From shows about Native American Issues, to a show done by a 7th grader! Alright!
