Dear Board member -

When the licencing procedure (RM9242) comes up for review, we urge you to vote for licencing small (50 watt and under) community radio stations so they can operate legally.

We have been operating for over a year without interfering with other frequencies. KAW (88.9) has been included in the "Journal World" radio listings since it began broadcasting.

We have contacted the FCC office in K.C. Mo, so it's now up to you. Please consider that KAW is staffed by volunteers of various ages, races & gender. No other radio station offers music from the big bands of the 40's, blues, jazz, rock, country to classic plus local talent and poets & writers! - There are also public announcements, interviews and comments from our officals, professors & others in our diverse community.

Thank you,

sincerely -

Joyce Riddle (age 69 member of the Olders Womens League) 815 Miss. St. Lawrence Ks. 66044
