We believe that the creation of low-power radio stations is vital to the diversity of American radio. Small, community broadcasters that cater more effectively to their listeners need to exist. As citizens who believe in freedom of speech we demand that space be allotted for stations such as these. We applaud the FCC's proposal for low-power radio
(Docket #99-25) and ask that they swiftly move to make it a reality.

Creemos que la creación de estaciones de radio de bajo voltaje es vital para la diversidad de la radio Americana. Pequeñas, comunidades emisoras que sirven más efectivamente a sus radioescuchas necesitan existir. Cómo ciudadanos quienes creemos en la libertad de expresión demandamos que espacios sean alocados para estaciones como estas. Aplaudimos la proposición de la FCC's para estaciones de bajo voltaje.
(Registro #99-25) y pedir que se muevan rápidamente para hacerlo una realidad.

KSCR Los Angeles Petition

We believe that the creation of low-power radio stations is vital to the diversity of American radio. Small, community broadcasters that cater more effectively to their listeners need to exist. As citizens who believe in freedom of speech we demand that space be allotted for stations such as these. We applaud the FCC's proposal for low-power radio
(Docket #99-25) and ask that they swiftly move to make it a reality.
