To the Secretary - Federal Communications
Commission Room 222, 1919 M street NW,
Washington DC 20554

RECEIVED
JUL 21 1998
FCC MAIL ROOM

My comments on the four proposals for the possible legalization of Low Power FM are:

Hey Uncle Sam at the FCC! How's it going? I hear you are considering legalization of Low Power FM! Excellent! I hate to see you shoot yourself in the heart by giving all the radio stations away to a few rich guys. Even a stupid tax paying 8 hour a day slave citizen of the USA like me knows a government by corporations is just a government by corporations no teenager in this town should ever volunteer to kill and die for. Button up the coat of democracy which you wear. Legalize low power FM.
