DOCKET FILE COPY ORIGINAL

MM 99-25

We are a group of musicians who live in the New York City Metropolitan area whose sole career focus is performing and recording original music. We propose to start and operate a low-power (preferably 1000 watt) FM radio station located in Manhattan (or elsewhere within the New York City Metropolitan area) which would broadcast music written and recorded by musicians who are not signed by major record companies.

We intend to operate either as a not-for-profit organization or to possibly incorporate local advertising to generate the income necessary to run this station. We feel that there is a dire need for this type of radio station nationally because of the control that large companies currently have over FM radio.
