Gentlemen;

A Report in our local paper states that your agency is considering licensing many low Power Stations in the future.

I would urge you to move very carefully and do a lot of research before granting these permits case in point - In November of 1998 a new christian broadcasting station call letters WAWN, Franklin-Venango county Pennsylvania began broadcasting on channel 89.5 1000 watts - 24 hour. F.M. They operate under the name of Lighthouse Ministries Inc. of Franklin Jane Richey - Station Manager.

No. of Copies rec'd 0+1
List A B C D E

The F.C.C. aproved there
Permit in January 1998
I have been a steady
listner of Radio station
WZED Brodcasting at 89.3 F.M.
Pittsburg Pa. And Radio station F.M.
WNED Jamestown New York.
broadcasting on 89.7 Both aprox.
80 Air Miles South & North respectively.
for more than 25 years.
Both are Clasical Music stations, 24 hrs.
clear Chanel.
Since this station began broadcasting
there have completely distroyed
the signal of 89.3 & 89.7 in many
areas and greatly afected it
within a radius of 8 to 10 miles
of there transmitter.
I have wittnessed the complete
destruction of of broadcast from 89.7
at 15 miles east of there transmitter
and ~~Severly~~ efected at 30 miles East.

It is very disturbing to be listening to your favorite music only to have it interupted by some pulpit pounding preacher yelling at the top of his voice.

These people are licensed to broadcast on one chanel and should not be permitted to pirate 2 additional chanels.

In my view they should not be permitted to disturb outher peoples pleasure.

There power should be cut to prevent this.

They should be made to be good neighbors.

I trust you will this your imediate attention.

Very truley yours

Richard D. Lalley
