As a War Veteran confined to a wheel-chair, I can not obtain a License in the Amateur Radio Service because I am a 'Cripple' and don't have the 'big money' it requires one to have to be in the 'Closed Society!"

Now it comes that the F.C.C. says we may have a "Free over-the-air Radio Broadcasting Service" or (LPFM), Ah, but wait this so-called 'Free Service' will require 'big money' paid to the F.C.C. for the L.P.F.M. Licenses! This will insure that the 'Big Money' Information Mafia will have control over what People hear, as it is now with the 'News Media'! (Radio Television & Newpapers)

Representative Billy Tauzin wants to reform a "Horse & Buggy Agency' which is trying to bridle Supersonic Technology: "The F.C.C. has become a "Roadblock to Competition!" Right!! The F.C.C. seeks as well no 'Freedom of Speech' this brings fear to the F.C.C. 'Money Grubbers!'

Sincerely,

Charles F. Howard Jr
