DEAR MR. KENNARD,

I WISH TO EXPRESS MY SUPPORT FOR LPFM. HAVING SOME EXPERIENCE WITH PROPAGATION, INTERFERENCE, ETC., I CAN'T IMAGINE ANY OBJECTIONS TECHNICALLY. TO SUGGEST 10 - 50 WATTS, CLEAN EMISSIONS WILL CAUSE PROBLEMS TO 100 KW STATIONS IS JUST NOT VALID.

N.A.B., M.A.B AND PROBABLY MY BOSSES WOULD NOT LIKE ME WRITING THIS, BUT IT'S STILL AMERICA. LET'S HAVE DIVERSITY AND HEAR THE MINORITY ON OUR AMERICAN RADIO WAVES.

THANK YOU,

John Kahmann
