Sir:

With the greatest respect I am writing this letter to you! I know you are very busy so I will get right to the point. This is concerning the Low Power Broadcast Systems (Stations) you are currently considering. I as a minority am very interested in the proposal. It would benefit the community! Help recruit minority (raw) talent of all races. Diffrent programming to appeal to everybody could be set at diffent

time slots so you don't have the same homogenized effect radio has now! It is stagnant! Also I feel advertising should be allowed to help keep the local merchants and the stations afloat!

I am not looking for a gigantic 50,000 watt station, just a small one run by all the F.C.C. rules and regulations I have vast electronic knowledge from years of experience! I think this would be a healthy venture and benefit all. Please if their is a list to be placed on concerning this matter please place me on it! Notify me if possible!

P.S. I have spoken to a Miss or Mrs. Linda Billon not sure if she is Miss or Mrs. twice about this matter. I have to say she was very helpful! In fact super! You have a fine person working for you there!

Sincerely

Jobs Cathy
