OFFICE OF THE SECRETARY

The Honorable John Breaux
U. S. Senate
Washington, D.C. 20510

Dear Mr. Breaux:

I am in agreement with John S. Belton on his stand in regards to the FCC and LPFM bands on the airwaves.

I am quoting from a WWNO newsletter written by Mr. Belton. "Our view is that the FCC Chairman William Kennard should wait for the results of comprehensive on-air interference testing and the resolution of related issues prior to issuing LPFM licenses.

We would like the FCC to create a swift, fair process for redressing any interference caused by LPFM stations to full-service stations"

Respectfully yours
