Washington, DC 20554

Re: Support for the 800 MHz "Consensus Plan"

Dear Chairman Powell:

I have recently become aware of the concern of our Florida Law Enforcement Public Safety leaders and organizations about the issue of dangerous interference of public safety communications in the 800 MHz spectrum band.

The Florida Highway Patrol, Florida Fish and Wildlife Conservation Commission Division of Law Enforcement, Florida Police Chiefs Association, Florida Police Benevolent Association, Florida Professional Firefighters, and Florida Fire Chiefs' Association have all expressed their concern for the issue and support for the Consensus Plan.

With this broad-based support from these important Florida first responders, I urge you to strongly consider their suggestions to clear the 800 MHz spectrum of outside interference through implementation of the Consensus Plan.

Sincerely,

Carl J. Domino
