Washington, DC 20554

To Whom It May Concern:

I am writing in support of Petition RM-9242, which proposes the establishment of licensing procedures for low power radio stations. I support this petition because it would allow one of our local radio stations, KAW 88.9 FM to continue on the air.

The KAW station has become a popular source of programming and information in our community and I would like to see them continue. The station has assisted our organization by airing public service announcements about our services for people with disabilities, and some of their programming is related to health issues of potential interest to citizens with disabilities. Even though their staff consists of volunteers, their operation is professional and organized. I support their efforts and hope to see them continue to serve our community long into the future.

Sincerely,

Susan Brown
Counselor/Community Coordinator
