Before the
Federal Communications Commission
Washington, D.C. 20554

In The Matter Of
Proposal for Creation of the Low Power FM
(LPFM) Broadcast Service

FCC RM-9242

I strongly suggest the FCC allow (Fee Based) low power FM service. Many local communities in Northwest Ohio have stations, which are programmed to serve other larger communities, leaving many communities with no local service. If adopted I will immediately apply for and construct a low power service station in under served areas of Northwest Ohio.

Sincerely,

James F. Phillips
President
