**Subject:** Comments to Commissioner Ness

FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Eric Burnette (ejburnette@worldnet.att.net) writes:

Susan, I just wanted to let you know that I am strongly in favor of the "Micro Station" initiative currently under consideration.

As somebody who makes his living building content for the Web, I feel that Micro Stations could do for broadcasting what the Web has done for computing.

I urge you to support the concept of Micro Stations, and their creation in a manner that allows ready and easy public access to them.

Thanks,

Eric Burnette
