To Whom it may Concern:

I am writing to you today to say how I feel about the subject concerning Michael G. I am also writing for the Hispanic community that feels as I do. To my knowledge Michael wants to have a license to be able to have a Spanish radio station, which was not granted to him. I feel that the Hispanic community needs a radio station where the celebrity broadcaster is friendly, knows what he is doing, and is concerned about the people. I feel that Michael is all of this and more. But having a radio station is not just because of this. It gives the people a chance to lesson as well as talk about subjects concerning where they come from. I feel that it was a wrong doing for not giving him the opportunity to be on the air and to serve the Hispanic community. I feel that everybody should be given the opportunity to serve its community in every way possible. I wish that you could reconsider in giving him the chance to bring the community closer regardless of its background. Something that you may not be aware of is that Hispanic people are not the only ones who lesson to his station. Kansas City is made up of different cultures and a large part of it is Hispanic that is why I feel that we should have a station that we can lesson to 24 hours a day. Like people say, the United States is a big melting pot and everyone should be treated equally.
