To: The Commission

SUPPORTING COMMENTS OF RADIO WAVES OF LOVE

1. Before the Commission is the above referenced petition which seeks to move the Commission to add three new classes of so called "low power" FM station.

2. Radio Waves of Love("Waves"), hereby submits its comments in support of the proposal.

3. That there is a need for a "low power" FM service is beyond question. The Commission admits to receiving in excess of 13,000 inquiries each year.<sup>1</sup>

4. Waves believes the proposed new "low power" FM radio service will deliver on its promise to remove the barriers to new entrants to radio station ownership and foster a diversity of media hitherto unattainable.

5. Waves concurs with the Petitioner that the proposed "low power" FM service would be an efficient use of the FM band.
