Dear Sir,

I would like to add commentary to petition RM-9208, Establishment of a Microbroadcasting Radio Service.

My comments are as follows:

I would like to see the possible modes permitted under any rules that might be established for this service include digital transmission that would allow the transfer of internet-compatible, and other packet-type data in either conversational/relay or one-way transmissions.

Thankyou for your kind attention,

Sincerely,

Alex W. Frediani Jr.
