DOCKET FILE COPY ORIGINAL

Before the
Federal Communications Commission
Washington D.C. 20554

In the Matter of
Proposal for Creation of the Low Power FM
(LPFM) Broadcast Service

FCC RM-9242

To: Federal Communications Commission

Reply-Comments of Jeffrey A. Libby

Please consider the Petition RM-9242. There are communities all across the United States that are a part of larger communities. The higher power stations are serving metropolitan areas as a whole with programming that does not address the needs of each local suburb. This Petition will allow the broadcaster with ties to his local community, the chance to serve his community. In order to serve his community effectively, the power levels as outlined in the petition will be needed.

Addressing the issue of interference between current broadcast stations and the proposed low power stations would be minimal as already demonstrated by the additional class of B1, C1, C2, and C3 stations.

I am in support of Proposal RM-9242 and ask you to give it your every consideration. Thank you for your attention.

Jeffrey A. Libby
