To Whom It May Concern,

I am writing about the Low Power FM service that is being considered. I realize that the filing deadline for comments was on April 27, and the reply-comment filing deadline was on May 26 and these deadlines have passed. I still wanted a chance to write and let you know how important the passage of this petition is to me. I agree that the half-mile coverage proposed in RM-2908 is insufficient and I would like to see the power level described in RM-9242. I appreciate your taking the time to read this note and consider this petition. always wanted to own and operate a professional low power radio station.

Sincerely,

Barbara Hayes
