Important when LPFM is Approved ""note this effort will go on  
passed ""

Summit for LPFM RM-9242 COMMENTS

any watts higher then 10 watts you would need a Frequencey Search by and Approved License Enginneer this is very simple,this way the NAB cannot screen there fool heads off, about interfearence etc. and if that is no good for them then simply,cut all FM stations back to 3000watts.that

ps frequencey search belongs to that party unless 2 are done at the same time,and i mean down to the minute and second.
