Subject: ?

Has anybody seen the latest prop before the FCC. They want to let the commercial boys interfer with each other!!! As long as its out in the sticks and the station doing the interfering pays dues to other station LET IT BE!!!!

All you farm boys out there in the sticks you dont need to hear your favorite station, the commercial GODS have decided that you should listen to the STATIONS with the DEAPEST POCKETS!!!

The Flunked Clown College (Failed and FCC for you commercial GODS and alike) has told us for years we cant turn on our microstations as it may cause interference to a few of our neibors! BUT IF YOU HAVE DEEP POCKETS YOU CAN CAUSE INTERFERENCE TO THOUSANDS OF PEOPLE!!! PUBLIC INTEREST OUT, Horse SHIT
