As an American taxpayer, I find your organization to violate the most basic of free speech rights. By banning those stations which cannot afford to be licensed, you basically eliminate the mass communication rights of the poorer segments of society. I would be pleased to know if a country wide voting referendum has ever even been considered regarding the Constitutional legality of your commission, though I am sure of the answer before asking. Please reconsider the rules regulating all stations over 1 watt. It is unfair that only those with commercial support, or mass money raising means (NPR) be permitted access to this medium.
