Washington, D.C. 20554

Dear Commissioners:

It has recently come to my attention that there is a proposal (RM-9242) to allow legal transmitters at low power to make local programming available. I hope that you will approve this proposal to allow access to a full 300 to 3000 watts (15 mile range) and to restrict the ownership to persons living within 50 miles of the transmitter antenna.

We need local programming to discuss and make our citizens aware of local issues. I hope to learn that you have approved of this excellent proposal.

Sincerely yours,

Betty G. Ware
(Mrs. H. Hudnall Ware, III)
