EX PARTE OR LATE FILED

FCC Commissioner Susan Ness,

My name is Joshua Freeze, and I am a bus driver in Austin Texas. I am also a programmer on KOOP radio. I have tried to keep up with the issue of micro-power radio and the FCC attacks against these station, and just heard that your agency is now threatening Black Liberation Radio in Chattanooga. I urge you in the name of free speech and liberty to leave that station alone. Shutting down micro-power stations serves no one except for huge radio corporations making profits off the public airwaves, while stations such BLR actually serve the community.

Thank you for your concern,

Joshua Freeze.
