White Corporate America (The FCC and The NAB) Throw Chains Around
the
Blacks, Spanish, They Keep Minority's in the Dirt, they keep them wallowing in
Mud.

According to WFSB TV 3 in Hartford, CT the local Black Gospel station
Praise FM was shut down today by the FCC. They had been on the air for over
a year and a half running a couple hundred watts maybe little more. So much
for the black community retaining a station that they really need here.

The FCC has also been hassling La Radio Nueva Musicale in
New Haven. It
is (or was?) the only Spanish language station in a city where 1 out of
every 5 residents are Hispanic.
