Subject: Comments to the Chairman

Gary A. Patzel () writes:

Dear Chairman:

I have been informed that the FCC will release a Notice of Inquiry in early November, 1998 regarding the Low Power FM Petition for Rulemaking FCC RM-9242.

I believe that the release of a Notice of Proposed Rulemaking would be a more appropriate action regarding this issue.

In consideration of the enormous volume of overwhelmingly positive public comments already filed, the release of a Notice of Inquiry instead of a Notice of Proposed Rulemaking appears to me as an unnecessary delay to the progress of LPFM.

Thank you.

Sincerely,
Gary Patzel
