

Dear FCC,

Please approve new low power fm stations. I am in favor of new low power fm stations to provide more diversity in radio listening. I agree "that these new LPFM stations would provide a low-cost means of serving urban communities and neighborhoods, as well as populations living in smaller rural towns and communities. In creating these new classes of stations" it would "address unmet needs for community-oriented radio broadcasting, foster opportunities for new radio broadcast ownership, and promote additional diversity in radio voices and program services."

Thank you,
Sally Miller
