FCC Proposes Licensed Low Power FM Radio

MM Docket 99-25

Comments of:

Greg Brown
3318 E. Tenth Street
Indianapolis, IN, 46201

Dear Sir or Madam;

I think it is a good idea to offer the new 1,000 watt license, the 100 watt license, and the 1 to 10 watt license. Advertising, enough to gain basic operating revenues, is a good idea. On the 1 to 10 watt transmitters, and the 100 watt transmitters, perhaps ads should be limited to announcer read text. This would help distinguish low power radio from existing radio service and would ease competition for advertising dollars. Please keep me informed as to the progress of this great new proposal. Also, I would like an application for the new licenses as they become available. Thank you for your good work and this bold new proposal.

signed,

Greg Brown
