

I am writing to express my strong support for the "Microbroadcasting: proposal. I have heard the concerns of Representative Tauzin and find them to be without merit. I am quite sure that many entities not interested in the public good will oppose this concept. Dismiss them. Like FRS, the microbroadcasting idea is one of the best concepts in decades. In a world of monopolized media, low power FM will create tremendous interest and encourage citizen participation on a local level.
