FCC MAIL ROOM

Dear Secretary:

In response to the proposed creation of "Microradio Service" I urge you to Not consider this bill or oppose it.

As a small market broadcaster in a county of 25,000 people in Ottumwa Iowa, with 6 radio stations, 2 Television stations, a Newspaper, Shopper and another 5 stations that come into the market place and sell, I pray you will drop this idea. As a small market broadcaster we are already struggling to serve our community, and keep jobs for the townspeople in addition to keep from being bought up by larger corporations. You continue to try to stop us from our life long dreams. don't force us out of business drop this issue and do something to help us not distroy.

The next time you think of a bill, remember treat your neighbor as you would want to be treated. walk in his/her shoes and ask is it really needed.

Thank you.

Respectfully:

Greg H. List
VP/GM
