

The creation of low power radio stations will be a very beneficial aspect of community organizing. The stations would provide a much needed format for community organizations helping to bring our communities together. This type of radio also gives citizens a voice in the community. There are many people who have no available format for community involvement. These stations would open a wealth of opportunities for business as well as artist who due to the nature of big business radio have no chance of being heard unless they are affiliated with a major record label. Our communities deserve to have the opportunity to be heard. Thank You,

Wyatt Mims
