OFFICE OF THE SECRETARY

January 17, 1999

BILL KENNARD,
Federal Communication commision's chairman

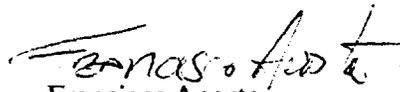

Dear Kennard:

First we want to congratulate you, because you have brought new and innovative ideas to FCC that going to have enormous impact in the radio industry, especially to the minority group.

As you is considering to implement a new low power service for radio in order to diversify radio ownership, Hispanic Development group, is interesting in to install a low power radiostation in the city of Lawrence for the hispanic community.

We want to get more information about how to proceed to obtain the legal permit to operate radio station using the 98.9 MHZ FM broadcast channel. If you do not mind, could you, please, send us the right information. To the hispanic community it would be so valuable to have its own radiostation and an important step for it to grow. Thank for you help.

Sincerely,

Francisco Acosta
President
