Multi-Legislator Letter
To The FCC

Give The American People
There Free Speech,Civil Rights,Bill Of Rights and There Constitutional
Rights.

The Congress of the United States
House of Representatives
March 10, 1999

The Honorable William E. Kennard
Chairman,
Federal Communications Commission
The Portals
455 Twelfth Street S.W.
Washington, DC 20554

Dear Chairman Kennard:

We are writing to commend the Commission for taking action on an issue of great importance to us -- improving access to our airwaves for our local communities. We have become increasingly concerned about the growing concentration of the media in our country and are pleased that the Commission is taking action to increase opportunities for local communities to use our radio airwaves.

One of the fundamental tenets of our democracy is to ensure that diverse interests have opportunities to express themselves at different levels, and that they are not locked out in a monopolistic, globalized fashion. It is as fundamental as free speech. Radio is perhaps the most qualified of any media outlet to provide community access. It is a relatively inexpensive medium to produce and is well-suited to cover community issues and local music. Unfortunately, today=92s radio is the most concentrated and formulaic medium in the country. Providing licenses to low power FM radio stations would create new opportunities for local voices to be heard in their communities.

Allowing low power FM radio stations on the air would empower local broadcasters to serve their communities with a variety of new voices and services. Low power radio stations would be able to

address specific groups -- including minority groups, the religious community, and linguistic minorities -- and provide a forum for debate about important local issues. These kinds of stations would strengthen community identity in urban neighborhoods, rural towns and other communities which are currently too small to win attention from "mainstream", ratings-driven media.

Further, they would provide an outlet for the diverse, local voices and

musicians that are presently priced out of the market. These stations would also provide advertising options for local businesses and increased employment opportunities in these communities.

The strong interest in independent radio stations shows that the creation of low power radio service would have wide support. The tremendous public demand for microradio is demonstrated by the proliferation of illegal radio stations, whose operators broadcast at the risk of financial losses and, in some cases, imprisonment.

Again, we applaud the Commission's willingness to address this issue. We are hopeful that the creation of a new class of low power FM radio service will soon become a reality. We look forward to working on making the airwaves more accessible to our local communities.

Sincerely,

Representative David E. Bonior, Democrat of Michigan

Representative Lincoln Diaz-Balart, Republican of Florida

Representative Rosa DeLauro, Democrat of Connecticut

Representative Lucille Roybal-Allard, Democrat of California

Representative James E. Clyburn, Democrat of South Carolina

Money talks

By Shawn Newman

Money talks, Ethics walks?

It is as old as scripture: "It is written, my house shall be called the house of prayer; but ye have made it a den of thieves." Matthew 21:13. Our "house of government" seem to have become a "den of thieves" with daily reports of campaign finance scandals, foreign money, etc. Here in Washington, we have tainted money flowing to expensive political campaigns; erosion of the people's right to referendum and initiative; and the shades drawn on so-called sunshine laws [Open Meetings Act and

Open Records Act]
