

I hereby request the Commission to deny the petition of the National Association of Broadcasters for an extension of the comments period for MM99-25. I do so on the grounds that when RM 9208 and RM 9242 were accepted, they knew or should have known that you were seriously considering licensing low power radio stations. This was well over a year ago, and they have already been granted one extension. To grant another would be tantamount to obstruction of justice by denying redress of grievances (in this case the low power petitioners) in a timely manner.

Thank you for your time
