

I am writing to voice my support for the rule proposed in Docket MM 99-25. I feel that in the current era of consolidation of ownership of radio, this change will be instrumental in giving a voice to a much more diverse group of people and formats than is currently the case. In my view, these changes will serve the public interest by broadening listener choices, and damage or interfere with existing higher-power stations only minimally if at all (having had some experience listening to LPFM stations in the past). I strongly urge the FCC to enact the proposed rule. Thank you.

Sincerely,

Kerry A. Forsyth, Esq.
Minneapolis, MN
