Dear Mr. William E. Kennard,

RECEIVED

My name is Jennifer L. Murphy and I live in Denver, Co. I am 18 years old. I am writing in regards to the vote on June 1st to know that I, along with many other Coloradans, support low-power FM radio. Community radio is very important, especially here in a city that is expanding so rapidly. I believe that community radio will help to bring people back together while helping them learn about issues that could affect them, in their own community and outside of it. We should have the opportunity as citizens to share knowledge with each other through the medium of air waves about local events, artists and information. I know there are a lot of people who would like to have more access to local voices. Please vote yes on low-power FM radio for Denver! Help us to help our city.

OFFICE OF THE CHAIRMAN
