Office of the Secretary
FCC
Room 222
1919 M Street, NW
Washington, D.C. 20554

Dear Sir:

The Lawrence-Douglas County Health Department supports Petition RM-9242 concerning low power community radio. KAW 88.9 FM provides a helpful community service by airing public service announcements on various health topics and in addition airs music, local news, interviews, and stories plus commentary on news and issues of interest to the citizenry of the Lawrence area. The station is locally operated with over 60 weekly programs created by local residents. The activities are carried out by volunteers and donations from the community.

We believe the station provides a valuable service and are supportive of their continued operation. We urge you to adopt the rule change that would allow licensing for low power stations such as KAW 88.9 FM.
Thank you for your consideration.

Sincerely,

W. Kay Kent, RN, MS
Administrator/Health Officer
