FEDERAL COMMUNICATIONS COMMISSIONER
OFFICE OF THE SECRETARY
FCC 1919 M STREET N.W.
WASHINGTON D.C. 20541

RECEIVED
MAY 5 1998
FCC MAIL ROOM

While we are working toward rehabilitation of almost 3/5 of our community involved in all kinds of crimes, our government justice in this matter. Such as the actual radio stations, televisions etc. are doing great continuation for the big raise in all kinds of crimes.

They are not under any circumstances helping to alleviate this situations. Our network the only big things they are promoting is the growing problems in

- 1.DRUGS
- 2.KILLING
- 3.HOMOSEXUALISM
- 4.PROSTITUTIONS
- 5.ADULTERY
- 6.BIGOMY
- 7.ROBBERY AND OTHERS

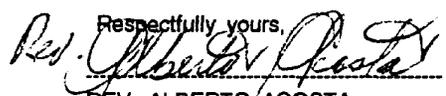

The objective of the FCC are far from accomplishment do to the facts that people with money are the ones that can have 4-5-or 10 radio stations, while our community are starving for services.

We the minorities could do more with a 100 wts radio station to our community than those who are holding licenses for 5,000, 10,000 100,000kwts radio stations.

I'm praying for God to give understanding to those people in power such as the COMMISSIONER to change the system, and to remember those that belong to the lower class which is the majority, but the minorities because of our limitations.

For this reason Commissioner, and for those reason people who are in charge of decision making. I address myself to you to approve or to leave the 100 wts radio stations for us. I'm requesting one, we need one and I promise you we will do more for our community than many many others promoting crimes.

I respectfully request from you which are my chances to have a low power radio station, to work toward our mentioned goals.

Respectfully yours,

REV. ALBERTO ACOSTA
Pres. Radio Amor, Poder Y Gracia
