

R.E. Proposition RM 912

Office of the Secretary

RECEIVED

I am writing ^{MAR 19 1998} support of K.A.W. radio
in Lawrence, KS, ~~FCC MAIL ROOM~~ micro radio stations
nationwide who are doing a much needed
job in our diverse society in a professional manner.

I do get very frustrated with corporate
control of most of the media. We do
need other viewpoints in our dialogue as
a nation.

It's extremely important that regular
folks have a voice and not just
moneyed interests.

K.A.W. is democracy in action! Cut
from the same mold as KKFI in Kansas
City, another very fine station. Took them
11 years to get started and they have
served the public for 10 years now, current-
ly with 100,000 watts of freedom power!

God Willing and the F.C.C. of course
K.A.W. will follow in the same fine
tradition. I find them entertaining and
professional in their operation, and a
fine clearing house for the community,
doing things that the other stations
do not do, I mean, a niche that
very much needed to be occupied.

Thank you for your attention.
