

Dear Commisioners,

I wish to express my approval on your proposed rules regarding LPFM broadcasting. As resident of a small community which until recently was a silent village, I am very happy to see the class of station these rules apply to. When we finally had a frequency allocated for our town, it was immediately snatched up by a multi-station owner and now serves a neighboring city which already had numerous broadcast licenses. I have previously expressed my displeasure over the wide-spread practice of monopolizing broadcast licenses by the larger corporate owners. I believe the proposed rules will significantly help to reduce the ill effects of the current licensing rules. I whole heartedly support the licensing of LPFM and wish to be among the first to file for LPFM licensing. I would wish the rules to permit commercial advertizing as a method of financial income for LPFM.

Sincerely,
Michael W. Sprague
