Re: MM Docket 99-25

Dear Chairman Kennard and Members of the Commission:

I am opposed to the proposed rulemaking for allowing low power FM radio service (LPFM).

While this country has built its strength on its' diverse cultures, it has also been under one primary and major language - english. To suggest to separate our people with different languages will be a devastating move.

The concept of this proposal of helping minorities is without merit. Newcomers to this great country should make every effort to learn the english language if they intend to live out their lives here.

This proposal says to locate the LPFMs in small communities - those with modest populations of minorities. major markets would not be affected because of the concentration of existing radio signals in those areas.

Small market radio stations has made airtime available for members of the populations represented on a consistant basis. There will also be interference with existing frequencies if this proposed rule is allowed to become effective.

We oppose this proposal. Ultimately the public will not be best served.

Submitted Respectfully by,

Harvey Keller  
Sports Director  
WCVL & WIMC
