

I am one of the many people who want to see LPFM become a reality. I think it would be great to have LPFM for many reasons: One is broadcasting sports events for the high school. Another would benefit the locally owned businesses. The local businesses could have a radio commercial, and it would cost less than if they put it on a 100 kilowatt station. It would also be broadcasted to the people in the town that they are in, not 150 miles away.

Another reason is this, the number of pirates might decrease because if they can leagally run a station by paying less than what the fine would be if they got caught, they would probably pay to have thier own station.

There are many other reasons and I don't have the time to type all of them but I hope that you do open the airwaves to those of us who don't have \$100,000 for a radio station.
