Subject: Support MicroRadio!!!

Federal Communications Commission
 Office of Secretary

I am writing you to urge you to consider the Proposed Rule for establishment of a LowPower Radio Service (in FCC Dockets RM-9208 and RM-9242) also known as MM Docket 99-25. I support licensing for both commercial-airing AND commercial-free LPRS stations. I am urge for protection of stations at 100 watts or less from being "bumped" by larger stations. Further, I support licensing stations in the range of 1 to 10 watts. I hope you will work to protect and support low power and micro radio. Thank you.
