Subject: Low-Power FM Broadcasting...

Federal Communications Commission  
Office of Secretary

Dear Sirs,

I am writing to show my support for low-power broadcasting. I would like to see a lot more diversity in radio. Most of my local radio stations sound almost exactly alike, because most are owned by the same large corporations. I don't believe my interests are being served by these stations, and would like to see low-power stations given the right to broadcast their programming.

Please resist the large corporations influence, and allow low-power broadcasting to serve the interests of myself, and other tax paying, voting Americans.

Thank you for your time,

Sincerely,

Karl Adams
