To Whom It May Concern:

I would like to voice my support for the implementation of the Low Power FM Radio and "microradio" available for liscensing. As a former broadcaster, I feel that this has been the best idea in the past 25 years of broadcasting. It has the opportunity to allow the free speech back on the airwaves that have become nothing more than electronic billboards.

I also want to encourage you to keep the application process as simple and inexpensive as possible. This will allow more individuals and smaller organizations the opportunity to have their voices heard. An opportunity that is sadly lacking on contemporary broadcasting as we know it.

Thank you for allowing me the opportunity to voice my opinion on this matter. I look forward to hearing about your decision. And if you approve this measure, look forward to submitting an application.

Sincerely
William H. Cox, Jr.
