

I would like to voice my support for LPFM. I believe that this would enable the population as a whole to benefit by enabling it to exercise its freedom of speech on the airwaves. The airwaves exist for the people, and not to be auctioned off to the highest bidder who will simply push lame bands and moronic advertising down our ears. LPFM is a very good thing. Even if a LPFM station broadcasted on a corps freq listeners couldn't even tell. Interference is a moot point.
