

On behalf of the Savannah College of Art and Design I would like to express our support for the creation of low power radio service.

While there are any number of local commercial stations and one public radio station, we believe there is a need for smaller, more locally focused stations that provide an outlet for educational and informational programming that services the downtown community.

The Savannah College of Art and Design's has a unique campus that encompasses the downtown historic district, and we believe a low power radio station would allow us to provide the residents, businesses and community organizations in our area with a valuable and useful service.

Thank You.
